

TUFFASS SRH - Side delivery

FEATURES:

- Side throws under tree or vine
- Throws 400mm - 5mt
- Adjustable side deflector
- Heavy duty chain floor
- Heavy duty proven gearboxes
- Hydraulic front half flow control door
- Floatation tyres
- Opening rear door
- Galvanized hot dipped

The TUFFASS SRH is a side delivery manure and compost spreader, designed for spreading material directly under trees, vines or on a growing bed.

Its 1.1mt narrow body makes it ideal for vineyards, macadamia and avocado orchards as well as any line crop. It is also made of heavy-duty material to suit Aussie conditions.

OPTIONS AVAILABLE:

- Approx. 4mt³ or 5mt³ Capacity
- Hydraulic brakes
- Road lights
