

TUFFASS Self Loader - Side delivery

FEATURES:

- Side throws under tree or vine
- Throws 400mm – 5mt
- Approx. 1mt cube capacity
- Heavy duty proven gearboxes
- Galvanized hot dipped

The TUFFASS SL - is a self-loading 3pt linkage side delivery manure and compost spreader, designed for spreading material directly under trees, vines and growing beds.

Its narrow body makes it ideal for vineyards, macadamia and avocado orchards as well as any other line crop. It's also made from heavy duty materials to suit Aussie conditions.
